- Snelle start
- Te beweiden
- Sterk zodevormend

D1 Master is het krachtige mengsel voor intensieve dijken die ook gebruikt worden voor beweiding. Het mengsel heeft een snelle start, waardoor het snel in gebruik te nemen is. Het voordeel van dit dijkenmengsel is dat het functioneel is maar ook te gebruiken is als wei. De witte klaver in het mengsel zorgt voor extra stikstof leverend vermogen aan de bodem en wat extra voedingswaarde.
